

INFORMATIONAL NOTICE

The California Department of Transportation would like to remind residents of the Mussel Shoals community of changes to the vegetation in the state right of way adjacent to their properties beginning on Monday, July 22.

Work will involve clearing and grubbing (removal of trees, shrubs, stumps, etc.) in preparation for construction of a bicycle route to augment the Ventura Freeway (U.S. 101) carpool lane project from Mussels Shoals to Carpinteria.

Hours will be 7 a.m. to 5 p.m., Monday through Friday.

Some parking adjacent to and within Caltrans right of way will not be accessible during this phase of the project. Additional information regarding the exact location of the affected parking will be provided as soon as it has been determined.

For questions or to obtain additional information, please contact the project hotline at (855) 454-6335. Construction updates will be provided periodically.

Caltrans appreciates your patience and cooperation as we move forward with this vital transportation project.
