## Firm Profile

The Source Group, Inc. (SGI) has extensive experience in the environmental assessment and remediation of contaminated sites throughout California and the U.S., including large, complex projects. SGI's clients range from government agencies at all levels, to private sector clients of all sizes. SGI's extensive experience in California has allowed us to develop a strong understanding of the complex regulatory framework and gain technical credibility with both the Regional Water Quality Control Boards and Department of Toxic Substance Control. Combined with our pragmatic and sensible approaches to projects, this expertise often results in lower costs and fast track project completion. SGI provides a broad range of environmental consulting and engineering services, including:

- Phase I and Phase II Assessments
- Soil and Groundwater Investigations/Groundwater Monitoring Programs/Chemical Fate and Transport
- Remediation Services: Site Remedial Design, Installation, or Operation
- Upstream Petroleum Services/UST Services
- Facility Decommissioning and Closure Services
- Water Resource Services/Hydrogeological Studies
- Legal Support Services/Insurance Support Services
- Brownfields/Redevelopment/Infill Development
- Agricultural Environmental Services

While SGI provides high quality professional services in all of these areas, the company built its strong reputation around solving complex subsurface contamination problems for our clients. With corporate headquarters in the San Francisco Bay Area, SGI has six offices throughout the state, including two in Southern California, the Central Valley, Silicon Valley area and Sacramento area.
