FOR IMMEDIATE RELEASE

CALTRANS STATEWIDE LITTER PICKUP DAY

Mariposa County – The California Department of Transportation (Caltrans) held a statewide Litter Removal Day on Thursday, April 19, 2012, to pick up litter and debris along the state highway system and to educate the public about this costly issue.

Caltrans maintenance crews in Mariposa County picked up over 47 bags of litter and debris for the entire day at the following locations:

- SR-49 from Bootjack Road to SR-140 junction;
- SR-140 from Nelander Road to just short of Washington Boulevard.

There were three Mariposa County Adopt-A-Highway groups that participated with Caltrans for this event. They were:

- DNC Parks and Resort in Yosemite Valley. They picked up along SR-140 from Foresta Road to Crane Creek Road.
- Yosemite Bug. They picked up along SR-140 from Climbing Lane to Bull Creek Road.
- Sierra Foothill Conservancy. They picked up along SR-49 from just south of Macready Way to just north of Princeton Way.

For more information on the Adopt-A-Highway Program, please visit www.adopt-a-highway.dot.ca.gov or call Kathy Cockayne, District 10 Adopt-A-Highway Coordinator, at (209) 948-7462.

The best anti-litter campaign is to ensure trash never makes it onto the highways in the first place. Caltrans encourages you to:

- Carry a litter bag in your automobile and always dispose of trash properly;
- Never discard cigarette or cigar refuse improperly;
- Always cover and properly secure loads of trucks and pick-ups.

NEWS RELEASE

With everyone doing their part we can keep California clean for today and the future.

#

Last year, Caltrans spent almost \$43 million on litter removal throughout the State Highway System. Over 150,000 cubic yards of litter were collected and disposed. That's about 9,500 Caltrans garbage trucks full of litter.

In addition to the economic costs, litter presents a wide range of serious threats to the environment and human health: Wildlife can suffer from plastics in the environment; roadside vegetation can be damaged by large debris; fires can be started from burning cigarettes that can threaten human health; harmful chemicals and biohazards can cause a serious threat to human health, litter can clog roadway drainage systems that can lead to wet-weather highway flooding, congestion, and accidents. Litter can aid in the spread of disease.
