

Appendix C Summary of Avoidance, Minimization, and/or Mitigation Measures

Environmental Factor	Potential Impact	Avoidance/Minimization Measure	Mitigation Measure
Cultural Resources	Adverse effect upon Spanish Creek Brg., Feather River Highway Historic District, assumed adverse effect upon Utah Construction Road and Maxwell Ditch	To the extent possible, minimize the shift in highway alignment	HAER recordation of bridge and construction of Interpretive kiosk describing historic resources affected by project
Land Use	Permanent and Temporary impacts to Spanish Creek Campground and recreation area	To the extent practicable, confine equipment and vehicles to paved areas and minimize vegetation removal; Restore impacted areas of campground and recreation area; stabilize disturbed soils; provide portage detour for boaters on Spanish Creek; Provide monetary compensation in the amount of \$870,000 to PNF to improve recreation area, including campground.	
Utilities	Potential relocation of utility poles	Any required utility relocation would be performed prior to bridge construction	n/a
Visual/Aesthetics	Tree removal	Utilize campground access road	n/a

	within Spanish Creek Campground and recreation area	and limit tree removal to extent necessary to complete project; Install ESA fencing to delineate areas of preserved vegetation; replace trees and woody vegetation where appropriate.	
Water Quality & Storm water Runoff	Turbidity and solids due to construction impacts	Implement appropriate temporary and permanent storm water best management practices	n/a
Hazardous Waste	Expose or dislodge lead paint on existing bridge	Include standard specifications in plans for waste management and disposal	n/a
Air Quality	Airborne particulates from construction and demolition activities	Notify County Air Resources Board prior to any bridge rehabilitation or demolition work	n/a
Fish & Wildlife	Stream diversions and pile driving in creek	Maintain stream continuity, use clean materials, and replace riparian vegetation	n/a
Vegetation	Approximately 10.1 acres of vegetation removal	Limit vegetation removal to minimum necessary for construction; Install temporary ESA fencing to protect vegetation adjacent to construction areas; trim and cover riparian where practicable to allow regeneration following construction; Apply erosion control seeding and replace upland and riparian woody vegetation where appropriate	n/a
