FOR IMMEDIATE RELEASE

Closure for Highway 120 East - Pavement Rehabilitation Project

Mono County – The California Department of Transportation (Caltrans) plans to close Highway 120 East as part of a \$3.5 million pavement rehabilitation project. The Highway will be closed for 8 miles from Adobe Ranch Road to 22 miles east of Hwy 395. Traffic is requested to detour via Benton Crossing road.

Closure Dates: Monday, May 7, 2012 6:00 am thru May 24, 2012 5:00 pm.

After May 24, 2012, one way traffic control will be in effect until early July. During this time the roadway will have a non-paved traversable surface. Two-way traffic will be available during weekends and holiday periods.

For the safety of the construction crew and motorists, please be attentive to closures, slow for the cone zone, and move over one lane where possible.

About the Project

This project is a Cold Foam In-Place Recycling pavement rehabilitation which consists of pulverizing the existing asphalt concrete pavement and a portion of the underlying granular base to a maximum depth of 12 inches, mixing with a foamed paving asphalt, grading and compacting the recycled mixture, and overlaying the recycled surface with a new layer of hot mix asphalt (HMA).

This \$3.5 million project, which will be completed in July 2012, will extend the life of the pavement, reduce maintenance costs and closures, and provide a smoother ride for motorists. The contractor is Qualcon Contractors, Inc of Minden, Nevada.
