Education

- Graduated in 1986 with a B.S. degree in Finance from Arizona State University.
- Completed numerous seminars in construction claims, CPM scheduling, and management .
- Completed DRB Foundation Member Training.

June 2004 to June 2010 - R&L Brosamer (California Heavy/Highway General Contractor)

- Responsible for claims preparation, presentation and resolution on several R&L projects.
- Responsible for presentations to DRBs on these projects.
- Responsible for CPM schedule preparation and updates including time impact analyses on several large Caltrans projects with complex staging requirements.
- Managed the construction of real estate development projects in Arizona.

January 1995 to June 2004 - McCosker Corporation (Enterprise Construction Accounting Software)

- Responsible for the strategic direction of an integrated suite of construction management software including financial accounting, job cost, equipment cost, payroll, billing, and project management modules.
- Started as the CFO, moved up to Vice President, and eventually President during this period.

January 1994 to December 1994 - Rust Remedial Services (Environmental Remediation Contractor)

- Managed the contract administration and claims management for the west coast division of RRS (a division of Waste Management).
- Resolved a large differing site condition claim with the Army Corps of Engineers and settled several change order/claims between Caltrans and ChemWaste (an RRS sister company).

January 1986 to January 1994 - Ball, Ball, and Brosamer (California Heavy/Highway Contractor)

- After three years in the field working in a project capacity, moved to the home office to focus on project cost management and control.
- Responsible for the recognition, formulation and resolution of contract change orders and claims including issues such as project delays, acceleration, production efficiency, differing site conditions, conflicting contract documents, bid item adjustments and so on.
- Legal liaison responsible for coordination management of inside and outside counsel
- Responsible for the formulation and review of contracts, subcontracts, major purchases and schedules.
- Ongoing analysis of job profits, cash flows and forecasted performance.
