Subject: Regional San Offering Free Recycled Water

Good afternoon,

I wanted follow-up and to let you know that as of September 30, Regional San opened its Recycled Water Fill Station at the Sacramento Regional Wastewater Treatment Plant in Elk Grove. Residential and commercial users can now sign-up to obtain **free**, environmentally responsible, and safe recycled water to irrigate lawns, gardens, and landscaping, or for dust control or other permitted uses. Initially, the program is limited to the first 500 users that sign-up.

The station is expected to be open through October or until the rainy season begins, re-opening next spring with the hopes of expanded participation. Interested users can sign up at www.regionalsan.com/fill-station. The station will feature several connection bays for users to fill approved containers or commercial tanker trucks. Participants must live in and use the recycled water in the Regional San service area. Participation requires completion of a permit application and a brief training.

Again if you're interested in receiving free recycled water, just go to our website and sign up. If you have any questions just give us a call at 916-876-FILL (3455) or email us at rwfillstations@sacsewer.com.
