Acting Chief Financial Officer  
August 1, 2001

**MONTHLY REPORT ON PROJECTS AMENDED INTO THE  
SHOPP BY DEPARTMENT ACTION**

In each even numbered year, the Department prepares a four year State Highway Operation and Protection Program (SHOPP) defining major capital improvements necessary to preserve and protect the state highway system. The Department periodically amends the SHOPP to address newly identified needs that should be addressed prior to the next programming cycle and to modify currently programmed projects. The Department sends the Commission Office a copy of all SHOPP amendments as they are approved and provides a report on the newly approved capital project amendments at each Commission meeting. The Department also reports any changes to the list of SHOPP-eligible projects approved for project development work only.

Since the June 2001 report, the Department has used SHOPP savings, SHOPP Managed TEA Reservations and deletions to approve eight new capital project amendments to the 2000 SHOPP.

The eight new capital project amendments included: Financial contribution for relinquishment and a climbing lane, three rehabilitation projects, a safety project, an operational improvement project, and a replacement of approach slabs project.

An attached Executive Summary lists the new capital project amendments. There was one storm water run-off compliance project added to the list for Project Development Only this month.

ATTACHMENT

**Executive Summary  
Projects Amended into SHOPP by Department Action**

This Executive Summary provides an overview of projects the Department has amended into the SHOPP since the last report. Copies of the actual amendments have been provided to CTC staff.
