The Honorable James C Ghielmetti, Chair
California Transportation Commission
1120 N Street (MS-52)
Sacramento, CA 95814

Dear Chair Ghielmetti:

RE: State Route 11 Project

On behalf of the Otay Mesa Chamber of Commerce, I would like to convey our strong support for the State Route 11 project. State Route 11 offers critical infrastructure in the South San Diego County.

A very important part of our mission is to keep the business community informed of the major infrastructure projects as they progress through the planning stages and to keep them updated as projects advance to construction. This particular project has been the subject of many of our public information meetings and project updates are made frequently to our webpage and publications.

We would like you to consider that any delay to this first segment of the project would directly impact Otay Mesa region by postponing the generation of new jobs and other economic opportunities created by the movement of goods through the area, as well as delaying the added value provided by this new infrastructure to the community.

Thank you for the opportunity to comment.

Sincerely,

Alejandra Mier y Teran
Executive Director
