

Programming Grouped Project Listings in Air Quality Non-Attainment or Maintenance Areas

Background:

Title 23, Code of Federal Regulations (CFR), Section 450.216 (j) allows projects that are not considered to be of appropriate scale for individual identification in the Federal Transportation Improvement Program (FTIP) to be grouped by function, work type or geographic region using appropriate classifications using the applicable classifications under 23 CFR 771.117(c) and (d) and/or 40 CFR part 93.

MPOs may find grouping projects to offer some advantages and flexibility when amending projects in the FTIP/FSTIP. New projects can be added to an existing grouped project listing through administrative modifications in accordance with the Amendment and Administrative Modification Guidelines. For non-Federal Transit Administration (FTA) funded projects, the detailed project lists may be revised without the need for amendments or administrative modifications if the revisions do not result in changes to the total grouped project costs. However, MPOs must update the detailed project lists to reflect the revision, and furnish them to the respective FTIP/FSTIP Coordinators at Caltrans, Federal Highway Administration (FHWA) and FTA along with a cover letter.

These guidelines are for programming grouped project listings for Metropolitan Planning Organization (MPO) and the rural-nonMPO areas that are classified as either air quality non-attainment or maintenance. The grouped project listings must be consistent with the “Exempt Project” classification contained in the Environmental Protection Agency’s (EPA) Transportation Conformity Regulation (40CFR part 93). It is the MPO’s responsibility to determine the eligibility of projects to be included in grouped project listings. If verification/confirmation is needed, an MPO shall consult with their planning coordinators from FHWA and Caltrans Federal Programming Office to confirm their findings.

Programming Guidelines:

1. Use the flow chart below to determine if a project is eligible for grouping. Projects ineligible for grouping must be programmed individually in the FTIP/FSTIP.

2. The description of the grouped project listings shall include appropriate “Exempt Project” classification per 40 CFR Part 93.126 and 93.127. See “Attachment A” for the “Pre-approved List of Grouped Project Listings”. If the proposed grouped project listing is different from the ones listed in Attachment A, the MPO shall contact their planning coordinators from Caltrans Federal Programming Office, FHWA or FTA prior to programming the new grouped project listing in its FTIP.
3. Projects may be further grouped by grantee/agency or by geographic area provided the grouped listing is consistent with the project listings per Attachment A. Note that projects can not be grouped by a particular fund type or funding program in the FTIP.
4. Detailed project listing (back-up listing) for a grouped project that is programmed or amended in an FTIP, must be included with the transmittal package to Caltrans. The detailed listings shall contain individual project information with sufficient description to accurately identify scope, implementing agency, location, limits of the project (if any), program year and the total cost. See “Attachment B” for the format of the detailed project listing. Total cost of the projects (including funding for all project phases) from the detailed project listing shall be programmed under the “Construction” phase in the FTIP.
5. Projects funded from the Federal Transit Administration (FTA) can be grouped as long as the detailed project list is readily available to the Federal Transit Administration and the public. The detailed project list must be included by MPO in FTIP/ FTIP Amendment when it is circulated for public review.
6. Projects with multiple FTA UZAs and with multiple FTA fund types can be grouped as long as the grouped projects meet the requirements of No. 5 above.
7. For MPO areas classified as air quality attainment (areas that are not classified as “maintenance”), projects that can be classified as “Categorical Exclusion (CE)” per 23 CFR 771.117 (c) and (d) can be grouped together by CE classifications.
